## HANNA

### SINKING

FEVER IS HIGHER AND PULSE MORE RAPID.

### CLIMAX IS REACHED

Physicians Say That If The Fever is Broken in the Next Few Days the Senator May Recover.—Otherwise it is Very Doubtful.

Washington, D. C., Feb. 12.—The following bulletin was issued by Senator Hanna's physicians this morning: "Senator Hanna had a comfortable night, but the fever is higher, 104; pulse more rapid, 112; respirations 28."

Senator Hanna's condition this morning was notably serious. His physicians believe the climax of the disease has been reached. This may continue for 48 or 56 hours, probably for a much longer time. It is the physicians' belief that if the fever is broken within the next two or three days the patient may have a good chance for recovery. If the fever should continue for a longer period, the worst is to be feared. His strength is insufficient to withstand the ravages of continuous fever.

For the past two days Senator Hanna's physicians have been employing saline solutions to neutralize the poison in the patient's blood. Senator Hanna's temperature at 2:30 this afternoon was 102.

Later (Bulletin)—Senator Hannas condition alarming. Temperature rising rapidly and he fails to respond to stimulants. Messengers have been hurriedly sent for oxygen.

### BALTIMORE RECOVERING.

All the Banks Opened To-Day.—Resuming Normal Conditions.

Baltimore, Feb. 12.—Proof that Baltimore is gradually resuming normal conditions was strikingly illustrated today by the opening of all the banks, which are well supplied with funds. President Homer of the

clearing house association expressed himself today as being more hopeful than ever of the quick restoration of healthy financial conditions. ### CHINESE INSPECTOR.

W. R. Mansfield, U. S. Chinese Inspector for New Mexico and Arizona is Here.

W. R. Mansfield arrived overland last evening from Lincoln where he has been on business. He is from Arizona and is the United States Chinese Inspector for New Mexico and Arizona, and he will investigate the papers of the "Chinks" in this city to see whether they have the right to live in this country. If any of them should refuse to show their papers they would be promptly taken to jail, and if upon investigation it should develop that they were in this country illegally they would be deported to China. It was suggested to Mr. Mansfield that some of the Chinamen who wanted to return to their native country would pretend that they did not have proper papers and thus secure transportation to China. Mr. Mansfield said there was not any probability of this occurring, as the proper officials kept close watch on the Chinamen who had a legal right to live in this country, and that a fraud of this kind could be easily detected, and instead of taking a free trip home Mr. "Chink" would get a free trip to the penitentiary. Mr. Mansfield also looks after other branches of the immigration business.

## NO

### ENGAGEMENT

JAPANESE FLEET HAS NOT BEEN SEEN SINCE TUESDAY.

### PRESS CENSORSHIP

On Account of Strict Censorship It's Hard to Get News From the Seat of War.—Japan Thinks the War Will Be Over by July.—Two Hundred Russians Were Lost.—Masampho to be Japan's Forever.

London, Feb. 12.—The British government has information which leads it to believe that Japan is likely to be in possession of Port Arthur in a week. In Japanese circles it is privately thought that the war will be over by July. The British officials are inclined to share in the Japanese view regarding the duration of the struggle.

Baron Hayashi, the Japanese minister here said to the Associated Press today: "Whatever may be the result of the war, Russia in allowing us to occupy and fortify Masampho has created for herself another Dardanelles. With the fortification of Masampho the integrity of Japan is assured forever. No fleet can pass there against Japan's wishes. Even if we were beaten we would not give up Masampho."

New York, Feb. 12.—About two hundred of the Variago crew lost their lives when the vessel was destroyed off Chemulpo, says a World special dispatch from Tokio. The crew of the Russian ship numbered 570. Many of them lost their lives under fire, but a large number were drowned in attempting to escape. It is said that not one officer was drowned in getting ashore. Many of them swam to foreign men of war in the harbor, which quickly lowered boats and went to their rescue. One hundred refugees, many of them wounded, boarded the British cruiser Talbot. The Japanese did not lose a man. No damage was done to the Japanese fleet.

A New York World dispatch from Kobe, Japan, says the Japanese troops landed at Gensan are intended to co-operate with the troops that are now being successively landed at Ping Yang on the opposite side of the Korean peninsula. These two forces constitute Japan's second line of defense against the Russians who are marching over the Yalu river into Korea. It is, however, considered most unlikely that Japan's army now lined along the south bank of the Yalu will reach its destination in time to intercept the invading Russians.

Chee Foo, Feb. 12.—The Japanese fleet has not been seen since Tuesday noon. The injured battle ships Czarevitch and Retvizan have been floated. The cruiser Pallada is still on the beach. It has been ascertained that the Japanese shells did not injure the forts at Port Arthur.

St. Petersburg, Feb. 12.—It is positively asserted by the government that no telegrams have been received from Viceroy Alexieff except those already given out. It is understood that the Czar is expectantly waiting for complete direct official information.

London, Feb. 12.—Japanese Minister Hayashi received dispatch from the government at Tokio announcing that the latter had not yet received the official report of the battles off Port Arthur. The dispatch adds that

the disembarkation of the Japanese troops is proceeding satisfactorily.

New York, Feb. 12.—Additional reasons to discredit the vague reports of further engagements between Russia and Japan are given in an official note sent out from St. Petersburg last night. The note reports that the cable from Vladivostok to Nagasaki and telegraph line from Seoul to Masampho and the line from Seoul to Wonsan are broken, which limits the communication with Japan to the cables that land at Shanghai which are under Japanese censorship.

Washington, D. C., Feb. 12.—Minister Conger has cabled the state department today from Pekin that China would immediately issue her proclamation of neutrality. The proclamation will prevent the threatened invasion of Manchuria by the Boxers. China must prevent the use of her soil by either Russian or Japanese troops.

London, Feb. 12.—It is evident the Tokio dispatches of yesterday received by the Reuters Telegram Co. referred to the first fight at Port Arthur and not to a subsequent engagement.

London, Feb. 12.—Referring to the Russian charges on the subject of Wei Hai Wei, Foreign Minister Lansdowne in the House of Lords today declared the report that Great Britain had given Wei Hai Wei as a base for Japanese operations against Port Arthur was entirely unfounded.

### WILD WEST SHOW.

Ellison, McGonigle and Gardner the Famous Ropers, Will Open Riding and Roping Show.

Ellison Carroll, the famous roper, left last evening for Hot Springs, Ark., where he will open a wild west riding and roping show, and the first appearance will be in that city where he has engaged the fair grounds. Joe Gardner and Clay McGonigle are in Hot Springs at the present time and will be joined by Mr. Ellison. The wild west show will be owned by Ellison, Carroll and Gardner, and the trio are the world's most famous ropers. They will doubtless make a success from the start and in the future become as famous as Buffalo Bill's wild west show. Their many friends in Roswell and the Pecos Valley wish them success in their new venture. The bulldog Negro who has received the cheers of thousands at the El Paso fair will appear with the new show. He is as black as the midnight of Hades, and was only a common cowboy until he gained distinction and prominence by grabbing steers with his teeth by their snouts and throwing them to the earth. He rides after a steer and dismounts and takes the steer by the horns with his hands and then grabs the steer's snout with his teeth and throws him to the earth. He discovered his talent by accident and he is now known as the "human bulldog."

The new company will have their own steers and horses. A carload of steers has been shipped from Fort Worth to Hot Springs. The show will open with sixteen head of horses, ten wild bronchos and six roping horses. Mr. Carroll was accompanied by his wife and she will travel with him. Mr. McGonigle will also be accompanied by his wife.

C. J. Walker of the firm of Walker Bros., returned last evening from Chicago and the eastern cities where he has been for several weeks purchasing spring and summer goods for the store in this city. During his absence he visited his old home in Iowa.

The Valentine party to be given by the ladies of the Episcopal church at the opera house Monday evening promises to be a most enjoyable function.

C. L. and B. H. Tallmadge the Chicago immigration agents who have been here for several days, left last evening for points south on the Baraboo, their special car, and will return to the city in a few days.

### Improvements Going On.

A force of carpenters have been at work at the Coliseum leveling and dressing the alleys, and doing all other such work as is necessary in keeping the alleys in first class condition, and it is safe to say there are no better bowling alleys in the west than here.
